Introduction to the Compendium

The purpose of the compendium is to provide the public and park employees with a document that lists the special designations, closures, public use limits, permit requirements and other restrictions imposed under the discretionary authority of the Superintendent. The Superintendent's authority to implement these provisions is found in Title 36, Code of Federal Regulations (CFR), § 1.5(a). The compendium is available to the public on the park website and upon request. The compendium will be reviewed and updated annually or as needed to ensure adequate protection of the park's resources, provide for public safety and enjoyment and to address changes in public use patterns.

The provisions found in this compendium constitute only one of many tools designed to manage and protect Hagerman Fossil Beds National Monument. It is important to utilize this document in conjunction with Title 36, Code of Federal Regulations, which includes the full text of National Park Service regulations, including those authorizing the provisions outlined in this compendium. Chapter I, Parts 1-7, of Title 36, include sections addressing resource protection, public use, recreation, boating, vehicles and traffic safety, commercial operations, and special regulations. These regulations are applicable on all federally owned lands and waters within the boundaries of the park and lands under the administrative control of the National Park Service. In addition, certain regulations found within Title 36 are applicable on non-federally owned lands under the legislative jurisdiction of the United States.

"Determinations of Effect" are explained in the appendix section.

It is the intent of this compendium, in conjunction with park brochures, maps, signs and other media, to help provide the public and park employees with a clear understanding of park rules and regulations. Any questions or requests for additional information should be addressed to the Superintendent's Office. We welcome your comments and suggestions.

Written determinations, which explain the reasoning behind the Superintendent's use of discretionary authority, as required by Section 1.5 (c), appear in this document identified by italicized print.
